madalena sousa

Hi! I'm Madalena, I'm 24 and I'm a cross-media designer based in Penacova, Coimbra. I like to make people's lifes easier and more intuitive through design.

My path until here has covered a lot of different areas within design. My main field of interest is **UX/UI design**, but I also do **branding, graphic design, game design and illustration** (although I'm a newbie at that). I can also do **front-end web development, video production, editing and motion design.**

I'm a native **portuguese** speaker and I also speak fluent **english.**
