

Hi! I'm Madalena, a 27 year old UX/UI Designer based in Coimbra.

I'm passionate about crafting **intuitive, user-centric** designs that enhance everyday experiences. From conceptualization to prototyping and refining digital products, I apply iterative processes and **user research**. Knowledgeable in **usability testing, design thinking, and data-driven optimization**. My diverse background enables me to work well in **cross-functional teams**.

Fluent in **Portuguese** and **English**, I'm always eager to learn and stay ahead of design trends.

experience

01.2023 - CURRENT TIME

UI Designer and Low Code Front End Developer

Accenture Portugal (Full-Time)

Designed interfaces for internal and public platforms, helping secure clients with design proofs of concept. Created solutions for low-code platforms using Figma UI kits and developed simple design systems in collaboration with the development team.
